

# ELECTRICALLY OPERATED SINGLE DRUM WINCH WITH VARIABLE VOLTAGE & FREQUENCY DRIVE

Model : KEJM - VS

## Technical Parameter

| Model No.                         | KEJM-VS3  | KEJM-VS5 | KEJM-VS10 |
|-----------------------------------|---|----------|-----------|
| Capacity (Ton)                    | 3   | 5        | 10        |
| Speed on Top Layer (Mtrs per min) | As Per Customers' Requirement   |          |           |
| Rope Drum Capacity (mtrs)         |   |          |           |
| Rope Drum                         | Heavy Duty Seamless Tube / MS Plate Fabricated  |          |           |
| Motor                             | Crane Duty, TEFC Squirrel Cage, 40% CDF, Make: Crompton / Bharat Bijlee / NGEF / Marathon |          |           |
| Worm Reducer                      | Greaves / New Allenbery / Elicon / Kepro / Alcon  |          |           |
| Coupling                          | Geared Coupling   |          |           |
| Electro Hydraulic Thrustor Brake  | Control Gears / Industrial Components / Kepro / Arkey                                     |          |           |
| Manual Brake                      | Hand Wheel & Acme Threaded Lead Screw Operated Twin Shoe Brake / Foot Operated Band Brake |          |           |
| Pawl & Ratchet                    | Drum Locking Device with operating lever for easy operation                               |          |           |
| Variable Speed Control            | Variable Voltage & Frequency Drive,<br>Make: LG / TOSHIBA / FUZI / CROMPTON               |          |           |
