

Dr. Sharmishtha Patra MS, FRCOG

Gynecologist, Obstetrician &
Laparoscopic Surgeon

Is White Discharge Normal?

When Should You Visit a GYNECOLOGIST?

Is white discharge normal?

Yes. A clear or milky white, odorless discharge is often a normal part of a healthy reproductive system.

But don't ignore it if you notice:

A strong or foul odor

Yellow, green, or gray color

Thick, cottage cheese-like discharge with itching

Burning, pain, or discomfort
